

**FINMAR**

FINANCIAL  
SERVICES

At FINMAR, our approach to dealing with your insurance is simple – we do it for you. This client-centred approach allows us to form integrated financial solutions whilst building long-term relationships with all of our clients. It also means that when it comes to giving advice, you not only get straight answers, but answers you can understand.

*Which is why we'd like to invite you to start the rest of your life here.*

## LIFE ASSURANCE

Personal life assurance is generally taken out to cover your changing risk needs as you progress through life. It's an insurance policy that, in return for the payment of regular premiums, pays a lump sum on the death of the insured. In addition to life cover, your Life Assurance should be flexible and adaptable, covering you not only on death but also on disability or severe illness.
